<Who are we and what is an IOT?>

The South Central Institute of Technology (IOT)

Activate Learning is working in collaborative partnership with Milton Keynes College in creating the South Central Institute of Technology.

The South Central Institute of Technology (IOT) is widening access, participation, and producing strong strategic talent pipelines across our geographic locations, creating an environment for new thinking and enabling young talented people to fulfil their potential in technical training and find careers in the digital and technology sectors.

What is an IOT

In today's fast-changing world it is vital to equip your teams with the digital skills that drive business performance. Whether you're looking to upskill existing employees, train entry-level recruits, or reskill non-technical professionals, our courses are here to improve your workforce's technical abilities and drive results.

Institutes of Technology have been designed to meet this need and create higher level technical qualifications, in partnership with employers to increase productivity and raise the standards of university-level technical education.

What is an Apprenticeship?

An apprenticeship is a genuine job that allows someone to earn while they learn, blending on and off-the-job training with classroom teaching. It offers a great opportunity for businesses to take on new talent and provide them with the skills for job learning and advancement.

<Our Values>

In everything we do we will:

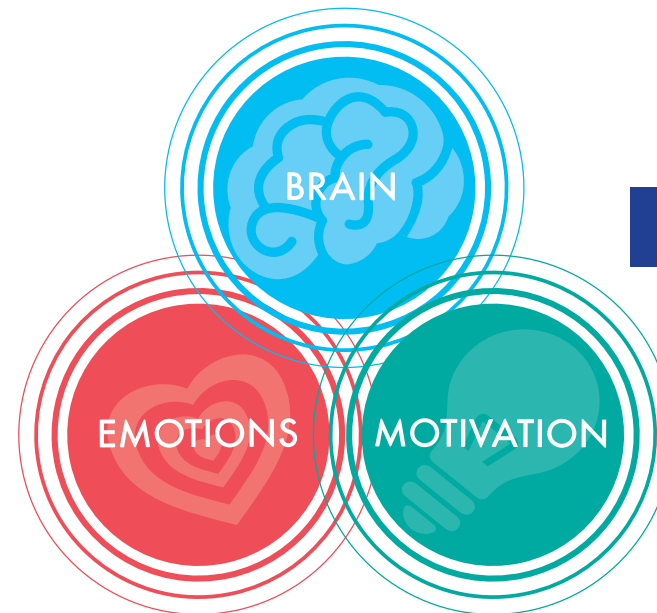

<Include> - We create opportunities for all, raise aspirations, be diverse in our thinking and offer incredible support to our community

<Innovate> - We innovate - our IoT will forever be in beta mode as we seek to continuously refine and adapt our ways of working to respond to new technologies and learning innovations

<Connect> - We always seek to collaborate and form partnerships, developing a community among our stakeholders which will create opportunities and lead to a thriving alumni network

<Challenge> - We have boundless ambition in everything we do, solving real world problems and using non-traditional methods

<Our Learning Philosophy>

Digital Products - 2021

Choices available:

<Digital Pathways>

Along with our 2021 digital apprenticeship offering we will also be offering the following pathways;

- **Cyber Security Level 4 apprenticeship, launching in 2022**
- **Digital Project Management Level 5 apprenticeship, launching in 2023**

<Talent Pipeline>

As well as supporting businesses with digital apprenticeship pathways, we can also support organisations by working with Activate Learning Technology Faculty.

Engaging with our students in a variety of ways, to establish a talent pipeline whether this be through project based learning - providing real working experiences, inspirational career talks, teacher industry exchange programme, supporting a young person with an industry placement through our digital T Levels, face-to-face or virtual work experience, mentoring and ambassador schemes, helping

As well as our hub from Reading College we will also have a dedicated IOT offering from our City of Oxford college, based at our technology campus at Blackbird Leys.

to shape our curriculum to ensure learners are set up for success and supporting the apprenticeship programme. These are but a few of the many menu of opportunities in, which you can engage with us.

<Case Study>

"I can't say how much I love being part of the Institute.

It has given me so many opportunities and really opened my eyes to how I can achieve my goals.

South Central Institute of Technology is the best place to be!"

Deborah Mungai

South Central Institute of Technology student

<Contact Us>

For more information, please refer to our website - <https://activateapprenticeships.co.uk/iot/>

To book your consultation with our Partnership Engagement Manager please contact Holly Perrett - holly.perrett@activatelearning.ac.uk

She will be happy to hear from you about how we can work in collaboration with your business to upskill your existing employees or attract new and emerging talent to your organisation. Holly looks forward to hearing from you and working with you.
